

Lewis County Department of Public Works

Josh S. Metcalf, PE, Director

Geoff Soderquist, PE, County Engineer

PRIVATE ROAD SIGN INSTALLATION

NOTE: These instructions apply only to private road signs that are on county right-of-way. Private road signs on private property need to be handled by the landowner(s). It is important that signs be replaced as soon as possible so that emergency vehicles can find you.

There is an installation fee for installing private road signs for new private roads. This is a one-time fee, \$125 as of 1/1/16.

When a private road sign is down on the ground (no damage), call Public Works at 360-740-1123 and we will put up the sign at no charge.

When the road sign of an existing private road is missing or damaged, it is the responsibility of the residents who live on a private road:

- To order and pay for a new sign to be made according to county specifications (attached). Look under “Signs” in the yellow pages to find companies that make signs and give them the specifications.
- To bring or mail the sign to the Public Services Building, 57 West Main St., Chehalis, WA. Give the sign to the Public Works Department at the front counter.

Responsibilities of Public Works Department, Traffic Control Division:

- To pick up the sign from the Public Works Building.
- To install the sign.
- To provide a post for the sign if one is needed.

There is no fee for re-installation of the sign for an existing private road, even if the post is damaged or missing.

Please call an Office Assistant at 360-740-1123, if you have any questions.
