Re: Current request for Mineral Lake area rezoning and development

Dear Commissioners,

We would like to request that the LCPC hold an informational or workshop meeting in Mineral so that residents and others interested in the Mineral area can become better informed on what's going on before the LCPC and Lewis County Commissioners relative to the Mineral Lake property.

Residents and others present may have information or opinions that the Commission members may want to hear. There are 2 possibilities for location of that meeting.

Mineral Fire Hall can accommodate 100 plus people. Ed Brown, Fire District Commissioner, would be the contact person. The Mineral Event Center can accommodate many more people. Gary Johnson or Jim Koutney are owners of that property. Phone numbers of these 3 men are in the phonebook.

If you have any questions about this request, please let us know.

Sincerely,

Ron Nilson, Roberta Church
Save Mineral Lake Committee
