

## EMERGENCY RESPONDER TRAINING

### A Seminar for Firefighters, Police, 911 Operators and Emergency Management Personnel

The public safety officer is typically first on the scene when utilities are damaged, whether in response to a downed power line due to a vehicle accident or an excavator digging into a natural gas pipeline. Make sure you're registered for one of Puget Sound Energy's 2013 Emergency Responder Training sessions. This interactive half-day course includes:

- A live demonstration of the characteristics of natural gas and high-voltage electricity
- How to identify and manage a variety of emergency situations involving PSE facilities
- An overview of PSE's response coordination and procedures

Classes are being held on the dates listed at the following locations:

#### SEATTLE

8:30 a.m. — 12:30 p.m.  
 Puget Sound Energy  
 Georgetown Base  
 6500 Ursula Place S.

Friday, March 15  
 Thursday, May 30  
 Friday, July 19  
 Thursday, Sept. 12

#### TACOMA

8:30 a.m. — 12:30 p.m.
