Denials are only appealable to the superior court of the county in which the land is located and the application is made.

Statement of Additional Tax, Interest, and Penalty Due Upon Removal of Classification

1. Upon removal of classification, an additional tax shall be imposed which shall be due and payable to the county treasurer 30 days after removal or upon sale or transfer, unless the new owner has signed the Notice of Continuance. The additional tax shall be the sum of the following:

   (a) The difference between the property tax paid as "Open Space Land" and the amount of property tax otherwise due and payable for the last seven years had the land not been so classified; plus

   (b) Interest upon the amounts of the difference (a), paid at the same statutory rate charged on delinquent property taxes; plus

   (c) A penalty of 20% will be applied to the additional tax and interest if the classified land is applied to some other use except through compliance with the property owner's request for withdrawal as described in RCW 84.34.070(1).

Consistency with the Lewis County Comprehensive Plan:
Natural Environment Sub Element, Page 4-61
GMA Requirements (9) *Open space and Recreation—Encourage the retention of open space and development of recreational opportunities, conserve fish and wildlife habitat, increase access to natural resource lands and discourage incompatible land uses.*

Open Space Goals: *The County recognizes the importance of open space corridors linking regions of the county and providing physical and visual relief to the built environment. In Lewis County the character of rural Lewis County is derived from its association with large acreage of lands in both the eastern and western portions of the county which are either park, wilderness or resource lands. Connecting these large blocks of land are corridors which flow to and through both the rural and urban areas, defining and separating the developed lands, defining the cities, and providing access and habitat for wildlife. The corridors follow the stream and river valleys and are comprised of steep slopes, agricultural resource land and flood hazard areas. Unlike park and recreation areas, open space lands may be either public or private ownership and are often to generally available to public access.*

Relevant Natural Environment Policies:
NE 4.2 Encourage the preservation of natural buffers along the County's rivers, lakes and streams.
NE 4.3 Encourage the preservation of wetlands, open lands, and habitat areas for the benefit of the county's indigenous fish and wildlife and quality of life of county residents.
