Tim Fife, Public Works, stated Lewis County Public Works is seeking the services of qualified consulting firms to investigate alternatives to improve access from the I-5 corridor to industrial properties in northern Lewis County. The analysis will include investigating alternative routes utilizing existing interchanges, as well as investigating the feasibility of a new interchange between Harrison Avenue (Exit 82) and the Grand Mound (Exit 88). This effort will require close consultation and coordination with Thurston County Public Works, Washington State Department of Transportation (WSDOT), the Confederated Tribes of the Chehalis Reservation, the City of Centralia and the Port of Centralia. 4. Notice: Extending the closure of a portion of Bunker Road to all through traffic. Resolution No. 15-102

Larry Unzelman, Public Works, stated the Department of Fish and Wildlife requested Lewis County on November 4, 2005 to close a portion of unmaintained Bunker Road due to water on, over and along the road. Vehicular traffic on the road is creating habitat degradation and loss of fish life. Additionally, protection is needed for vehicular traffic from the potential hazard caused by water over the road. The Department requested the road to be closed to all vehicles seasonally, from October 15 to April 15. Resolution 06-014 passed by the BOCC on January 9, 2006 instructed Lewis County Public Works Department to gate the end of Bunker Road, and keep it closed to all vehicles during the seasonal closure. This seasonal closure was for a period of five years ending on April 15, 2010 and resolution 10-092 extended the seasonal closure to April 15, 2015. There has been no change in the condition of this portion of unmaintained Bunker Road and until the problem is cured, Public Works Department sees no alternative to keeping the road seasonally closed as was proposed and extend the closure date for a period of five years ending on April 15, 2020.

The hearing for the grant application will be noticed in The Chronicle on March 31 and April 7, 2015.
