## BINDING SITE PLAN Type III Application

#### Process:

The general process includes the following.

- **Application Submittal.** The applicant submits a complete application, including a preliminary binding site plan map drawn by a Washington State Licensed Professional Land Surveyor.
- **Completeness Review.** The Planning Department reviews the application for completeness. If additional information is needed, the department will notify the applicant.
- **Department Review.** The application is forwarded to different departments for review. When the review is finished, the departments notify the Planning Department of comments or conditions.
- **Preliminary Decision.** The Planning Department will schedule a Public Hearing with the Lewis County Hearings Examiner and make a recommendation on the proposal. The Hearings Examiner's will make the preliminary decision.
- **Final Decision.** Once the conditions are met and all improvements are installed or bonded for, a final binding site plan map may be submitted to Planning Department for final signatures or final binding site plan approval. Relevant departments will review the binding site plan map.
- **Final Document Recording.** Once the map is signed, the applicant is responsible for having the final map recorded with the Lewis County Auditor. All costs associated with the recording of the final map shall be paid by the applicant. All property taxes and assessments shall be paid in full for the year in which the final map is recorded. The map must be recorded at the Lewis County Auditor's Office within 30 days of the final map approval.

### **Requirements:**

Binding site plans must show:

### All development is outside designated critical areas and buffers

Demonstrate this by showing all critical area boundaries and buffers on the proposed binding site plan map. All buffers must comply with existing Lewis County development regulations, including, but not limited to: the Critical Areas Ordinance, the Shoreline Master Program, and the Flood Hazard Prevention Ordinance.

### Adequate provisions are made for roads, waste disposal, and water:

- Access. Access from a public road requires an access or approach permit. If access is proposed from a state highway, the State Department of Transportation must review and approve access. Even if there is a current access permit, the DOT must review and approve access based on the subdivision proposal.
- **Roads.** Roads are required to meet County standards. A maintenance agreement must be provided for private roads to show how they will be maintained.
- Wastewater Disposal. Wastewater treatment is required to meet City and/or County standards. All proposed and existing sewage systems or septic systems and/or connections to public systems shall be indicated on the map. If individual septic systems are proposed, a soil survey shall be submitted for each lot (if commercial or industrial) or for the RV Park that demonstrates that a septic system is feasible, in compliance with County Health Department standards.
- Approved Water. Adequate water is available for the proposal. The location of wells or public water connections are required to be indicated on the map. If water from a water service provider is proposed, the applicant must submit certification from the provider that water is available in quality and quantity sufficient for the proposed use of all lots/spaces within the binding site plan. If individual wells or a public well is proposed. The proposed locations shall be shown on the drawings and include the 100-foot radius Sanitary Control Area.

#### Disclaimer:

If your parcel is in a special tax program such as Open Space Farm and Agricultural Land, Open Space Timber, or Designated Forest Land, or if you are getting a Senior Exemption on your taxes, you are encouraged to discuss any considered land divisions or binding site plans with the Assessor's Office BEFORE making those changes. Land divisions or binding site plans may involve undesired tax consequences. You may reach the Assessor's Office at (360) 740-1392.

### **BINDING SITE PLAN**

Type III Application

**Required Submittals:** The following are required to be submitted for a binding site plan application:

APPLICANT STAFF

Completed Survey Map drawn by a Washington State Professional Land Surveyor (PLS) - With all the requirements on the Lewis County Community Development 'Binding Site Plan Survey Map Requirements' Handout.

Completed 'General Information'

Completed 'Binding Site Plan' Application

Documentation of a legal lot of record that meets the criteria in the Lewis County Code Chapter 16.02.050

Lot Closure Notes for each lot prepared by a Washington State Professional Land Surveyor (if commercial or industrial BSP)

Existing road maintenance agreements, well maintenance agreements, community on-site sewage disposal system maintenance agreements, and/or restrictive convents that apply to the subdivision

For applications proposing service from a public or municipal sanitary sewer or water system, letters from an approved water or sewer purveyor stating the ability to provide service to each of the proposed lots/spaces. For those proposing septic systems, copies of soil evaluations for each lot or RV Park. If wells are proposed, a copy of certification of water availability

SEPA as required for the project

### **BINDING SITE PLAN SURVEY MAP REQUIREMENTS**

**Survey Maps:** <u>Five (5) copies</u> of a map (18" by 24" Survey) meeting all the requirements for recording by the Lewis County Auditor to the Administrator for review with, permanent black ink, and meeting the requirements of WAC 332-130-050 and RCW 58.58.09.

PPLICANT   S	STAFF	
		A label identifying the map as a Binding Site Plan
		A reference to the binding site plan number (BSP) on the face of the map
		Original legal description and proposed legal descriptions on the face of the map
		A vicinity map, the date, and north arrow
		The names and addresses of the owner
		The acreage of the proposed lots or square feet of RV spaces
		The original lot lines
		The proposed lot lines or RV spaces with a number assigned to each lot or RV space. Lot or RV space numbers are to begin with number one (1) and proceed in a consecutive sequence
		The location, width, and names of all existing streets, ingress, egress, or easements within or adjacent to the proposal, including, but not limited to, existing or proposed easements to provide access to each lot/space, and indication as to whether they be public or private and the Auditor's File Number
		The location of existing structures, fences, buildings and improvements
		The location of natural features such as water bodies, rivers, steep slopes and wetlands
		The location of all existing and proposed wells and septic systems including reserve areas, water lines, sanitary control areas, and other utility lines
		The point of proposed access for each lot or space to the public road, whether each lot or space shall use a common access or have individual access
		The boundaries of any land to be reserved for the common use of the property owners
		Location (to the extent possible) of all section and section subdivision lines referenced in the legal description of the entire property to be subdivided
		Survey maps shall also contain
		<ul> <li>i. Name of professional land surveyor (PLS), stamp and signature of PLS</li> <li>ii. Any monuments and markers of record, a minimum of two corners must be set or found</li> <li>iii. A signature block for the approval and signature of the Administrator, and the date signed</li> <li>iv. Signature block for Treasurer with a statement that property taxes for the parcel within this map have been paid through the year of recording</li> <li>v. Signature block for Auditor</li> <li>vi. Signature block and patery block for owners</li> </ul>
		vi. Signature block and notary block for owners
