Attachment A – Funding Formula for User Fees

Parties to this Agreement agreed to remit user fees as outlined in the Agreement based on the following formulas. These formulas will be reviewed for accuracy annually or as directed by the Executive Board during the budget process.

Budget Split

The difference between budgeted costs and revenues as outlined in Section 19 shall determine the net amount to be paid by Parties. Law Enforcement Parties will be assessed 75% of the remaining operating costs and Fire Department Parties will be assessed 25% of the remaining operating costs.

Fire Formula

Fire Department Parties will be assigned a workload percentage based on their dispatched incidents in a rolling three-year period of the most recent calendar years.

Ex. Fire Department A has 3,500 dispatched incidents in a year. All Fire Department Parties had a total dispatched incidents count of 15,000.

Fire Department A's user fees would be 23.34% of the Fire Department Parties' 25% of the operating budget, less other revenues.

Law Formula

Law Enforcement Parties will be assigned a workload percentage based on the following:

- Dispatched Incidents (to include Traffic Stops NOT assigned a case number as captured in the Radio Log) of the most recent calendar year, weighted 90%.
- Jurisdiction population (based on most current census or other published available data), weighted 10%.

Ex. Law Enforcement Agency 1 has 1,500 dispatched incidents in a year. All Law Enforcement Parties had a total dispatched incidents count of 16,000.

Law Enforcement Agency 1's user fees would be 9.37% of the Law Enforcement Parties' 75% of the operating budget, less other revenues.
