

Look out for your overall health with MetLife Vision Insurance.

Flexible and broad coverage that may save you money.¹

Why is having a good vision plan so important?

Regular visits to your eye care professional can provide essential care for your eyesight and help supplement routine physical exams.² Through a routine eye exam, eye doctors can find health problems like diabetes, high blood pressure and high cholesterol.²

That's why yearly vision exams are important, even if you have perfect vision. Vision benefits may help you manage your overall health care.

Set your sights on better vision with MetLife Vision Insurance featuring the VSP Choice network.

Vision care services without a vision plan can be expensive. Out-of-pocket costs can add up fast. See how much you could potentially save¹ with MetLife Vision in the example below. Keep in mind this is an illustration only. Your costs and savings could vary.¹
