RE: Transmittal Letter – Petition from Good Crushing related to the Amended Special Use Permit file number SUP25-0001 and Public Hearing No. 26-2-001

Dear Mr. Scheibmeir:

Today, the attached "Petition for Appeal" was submitted at the Lewis County Community Development Permit Center.

Previously the County has informed the Appellant that (despite the confusion on the code) there is no mechanism to appeal a Hearing Examiner's decision of a Type III application to another Hearing Examiner and there are no other administrative appeal options for a Type III land use action. The appeal process is through RCW 36.70C (LUPA appeal) to the Courts. The appellant could file the optional request for reconsideration to the Hearing Examiner. See attached letter to parties with standing and the Director's Code Interpretation on this matter.

Today, the Appellant was insistent on dropping off the appeal anyway, so we are forwarding the documents to you, even though the Appellant's cover page indicates it is not a request for reconsideration. It is unknown if the other parties with standing have been provided a copy of this petition by the Appellant or not.

Sincerely,

Karen Witherspoon
