Name: _____ Phone Number: _____

Mailing Address: _____ Email: _____

Acknowledgment and Permission to Enter

I hereby represent that I own the land adjoining the approach authorized by this permit, and/or have the legal right to cross same and shall, upon findings of my misrepresentation of same, remove said approach at my sole cost, and shall indemnify and hold County harmless from any and all claims arising out of such misrepresentation to the County.

I affirm that all answers, statements, and information submitted with this application are true, accurate, and complete to the best of my knowledge. If Owner information is filled out, I affirm that I am the owner of the subject property. If Agent, Professional and/or Applicant information is given, I am duly authorized by the owner to act in respect to this application.

I acknowledge that issuance of a road approach permit does not guarantee issuance of any other county permits or that the driveway/private road meets Lewis County road standards.

If this road approach is located on unmaintained county road right of way, and work being done by Applicant is beyond that of brushing, adding rock or minor grading, a Work on Right-of-Way permit is required.

All road approaches shall be valid for a time of 180 days from the date application is received. Access shall not be considered as legal until permit is issued subject to the provisions of Lewis County Code, final inspection and approval per 12.60 LCC.

During the review of this road approach application, any existing approaches will be reviewed by the County to verify a functional road approach. A functional road approach has adequate sight distance and width and does not pose a potential hazard to the county road.
