ROAD STANDARDS DEVIATION REQUEST

RSD Request #: _____

Project Description: _____

(Please attach additional sheets if needed)

Property Information:

Tax Parcel Number: _____ Site Address: _____

Subdivision: _____ In UGA of: _____ Pvt Road Name: _____

Owner Information:

Owner's Name: _____ Phone Number: _____

Owner's Mailing Address: _____ Email: _____

Applicant Information (if different): ☐ Owner ☐ Engineer ☐ Other: _____

Name: _____ Phone Number: _____

Mailing Address: _____ Email: _____

Major or Minor Road Standards Deviation Request -- Section 12.60.060 of the Road Standards in the Lewis County Code.

A Minor Design Change Request deals with the construction of facilities, rather than their general design. Some examples are: surfacing materials or thickness thereof, pavement marking layout, exceeding of the maximum road grade, type and/or location of signage, channelization, intersection interior angles and curb radii less than required, field changes during construction, turnaround modifications, utilization of the current Standards in lieu of the road standards in place when the Applicant's proposed project was vested. See the code for a more comprehensive list.

A Major Design Change/Deviation deals with the vertical and horizontal geometrics and safety-related issues. Some examples are: reduced sight distances, vertical or horizontal alignment, geometric design (length, width, bulb radius, etc.), design speed, crossroads, access policy, or restrictive right of way conditions. See the code for a more comprehensive list.

Type of Roads Standards Deviation Request: ☐ Major ☐ Minor

This deviation request is in the public interest per Chapter 12.60 LCC.

Engineer Stamp:

As authorized by the applicant, this request constitutes permission to delay processing any related county applications for up to 21 calendar days to allow analysis and decision by the County Engineer. Public Works may advise Community Development to add the time between receiving this complete application and the decision being made to the project timeline. **Two complete sets of this request, vicinity map, and documentation** must be submitted to Public Works at the above address.

I grant permission for personnel and representatives of Lewis County to enter and inspect said property as is reasonably necessary to process this application.

Signature of Professional Engineer: _____ **Date:** _____

Describe the County standard to be deviated from: _____

Describe why the above County standard cannot be achieved: _____

Describe the proposed design and how it is different from the County standard: _____

Describe how this deviation is based on sound engineering judgment and that requirements for traffic safety and operations, function, appearance, fire protection, environmental protection, and maintain-ability are fully met: _____

Describe how granting the requested deviation will not violate any development-related conditions imposed upon the project: _____

- To be Completed by Public Works Staff -

Analysis of Justification for Deviation

- ☐ Conformance to existing standard:
- ☐ Adverse Topography:
- ☐ Comparable to or Exceeds Standards:
- ☐ Improved Safety:
- ☐ Maintainability:
- ☐ Conforms to development related conditions:
- ☐ Other:

Staff Recommendations

- ☐ Approve
- ☐ Deny on basis of: _____
