

Exhibit B- Questionnaire

1. How long has your organization been certified by the Substance Abuse and Mental Health Services Administration (SAMHSA)?
2. Provide a detailed description of your organization's experience providing drug testing / toxicology services to therapeutic court programs in Washington State.
3. Provide a detailed description of your organization's experience providing drug testing / toxicology services to other programs or institutions, if any.
4. Please provide pricing breakdown for all drug panels and single drug screens.
5. Describe the "Client Reporting, Randomization and Test Result" platform used by your organization. If this is not a cloud based platform, please describe the organizations process for delivering this service.
6. Describe in detail the specific testing methods used in screening urine specimens, as well as methods used in confirming positive screening results.
7. Describe your organizations plans for training Court staff and contract staff.
8. By what methods does your organization provide customer service in the following area:
 - a. Expert consultation on test results and screening methods
 - b. Expert testimony regarding validity of testing methods
9. What training will the organization provide to the Lewis County Drug Court Program staff and contractors to ensure specimen validity and chain of custody consistency?
9. Please provide options and pricing for alternative tests to urine drug screens, e.g., saliva or hair follicle.
10. Please provide options and pricing for urine drug screen instant tests.
