RE: SHD20-0002 Shoreline Substantial Development Permit and Shoreline Conditional Use Permit - Incomplete application letter

Dear Ms. Hamer:

Thank you for submitting the JARPA application packet (SHD20-0002) and underlying development permits (B20-00347, FD20-00033 & G20-00013) for the new pedestrian bridge crossing over HWY 6 which requires shoreline substantial development permit and shoreline conditional use permit reviews on June 4, 2020 and June 8, 2020. I have reviewed the original submitted information and found the applications need additional information, corrections and/or clarifications to become complete to begin the review process.

Please return the following items to me as soon as possible to ensure timely processing of your applications. If these items are not submitted within 90 days of the date of this letter, your applications will lapse per Lewis County Code Section 17.05.070(B)(1):

- The burden of proof statement indicating how the project meets the shoreline substantial development criteria and the shoreline conditional use criteria have not been submitted. This statement will need to include all of the applicable section of the Lewis County Shoreline Master Program and the criteria in listed in WAC 173-27. Please provide the completed burden of proof statement.

Based on the information/corrections you provide, additional information may be required. The Washington State Department of Ecology is the final issuing agency for Shoreline Conditional Use Permits after the county issues a recommendation through the County Hearing Examiner.

O 360.740.1146 F 360.740.1245

Lee Napier, Director

Once the applications are determined to be complete to begin the review process, the Notice of Shoreline Application will be issued and the application packet will be reviewed by other departments and agencies with jurisdiction. After the conclusion of the 30-day shoreline notice of application, and once Lewis County has been authorized to move to Phase 4 of the Governor's Safe Start Plan due to COVID-19, the shoreline hearing will be scheduled. At that time, a notice of shoreline hearing will be published in the newspaper of county record. The applicant and/or their consultants will need to be prepared to attend the public hearing to provide evidence on how the project complies with the shoreline master program and WAC 173-27.

If you have any questions please call me at 360.740.2637 or email at karen.witherspoon@lewiscountywa.gov.

Sincerely,

Karen Witherspoon
