Note All numbers are subject to change as more data are available and are verified. Home/OTC-tests are not included in case totals.

Weekly COVID-19 Totals, May 27, 2022 - June 23, 2022, Lewis County, WA

Note All numbers are subject to change as more data are available and are verified. Home/OTC-tests are not included in case totals

As of the reporting week of June 6 - June 12, 2021, total and new cases include diagnosed (molecular test) and probable (antigen test) cases with a specimen collection date during the current reporting week; probable case inclusion began December 16, 2020. LPHSS does not report deaths until verified by receipt of a physician-signed death certificate stating COVID-19 as a cause of death. Congregate care settings include licensed facilities, such as nursing homes, assisted living, adult family homes, child care centers, schools, homeless shelters, jail, detention and other similar group care or placement settings. An outbreak involves two or more linked cases of COVID-19. The number of outbreaks reported does not equal the number of persons involved. As data is verified, numbers reported previously may change. We access data from multiple official sources; discrepancies from one source, or day, to another, is a reflection of differing operating procedures. Data sources include: Washington State Department of Health COVID-19 Data Dashboard: <https://www.doh.wa.gov/Information/News/CoronavirusOutbreak2020COVID19DataDashboard>, Roadmap to Recovery Metrics: <https://coronavirus.wa.gov/what-you-need-know/roadmap-recovery-metrics>, and LPHSS. Everything we report in our Weekly Update is an official public record. As such, it has been confirmed to the best of our abilities to be accurate. Weekly COVID-19 cases are reported on the same day. COVID-19 cases from Saturday, Sunday, and holidays are reported out the next business day.
