Request for Proposals (RFP)

Lewis County is seeking qualified applicants to submit proposals to provide behavioral health programs that support early identification, intervention, and prevention of mental illness and/or substance use/abuse.

The total amount to be awarded for this RFP will not exceed **\$245,000.00**.

The goals of this request for proposals are to either renew or establish new services in Lewis County which, individually or together will provide needed treatment, recovery-oriented and/or prevention services in order to:

- a. Reduce the impact of substance use and untreated mental illness on the community,
- b. Lessen the financial and operational burdens borne by the criminal justice system, emergency medical system, and emergency departments as a result of substance use disorder and mental illness,

The Board of County Commissioners (BOCC) may select one or more contractors to provide any or all of the above services.

- A. Written inquiries regarding RFP content and process may be submitted and must be received by **5:00 PM on August 29, 2017**. Written inquiries should be submitted to:

katie.strozyk@lewiscountywa.gov

Responses will be posted at <http://lewiscountywa.gov/publichealth/public-health-blog> by **September 1, 2017**.

 - i. Contracts will be **twenty-four (24)** months in duration. Contract funding will be by **calendar year**, with no roll-over of unused funding to the subsequent year.
 - ii. Contracted services are paid on a cost-reimbursement basis.

II. Decision Making Process

- A. Applicants of selected proposals will be required to make oral presentations to the committee during a public meeting. Oral presentations are tentatively scheduled for **the week of October 9, 2017**.
- B. Applications will be reviewed by a committee made of individuals who have expertise in behavioral health treatment and prevention services but who are not affiliated with any of the applicants. The committee will make recommendations for awards to the Lewis County Board of County Commissioners (BOCC). The BOCC makes the final funding determinations.
- C. Lewis County, in its sole judgment, reserves the right to determine which proposals best meet the County's needs. The County retains the right to reject any or all proposals or to waive formalities with or without cause.

Lewis County

Chemical Dependency - Mental Health – Therapeutic Courts (CD-MH-TC) Sales & Use Tax Strategic Themes and Goals

Strategic Themes

The following strategic treatment themes will be referred to in meeting the desired outcome as listed in the executive summary above:

- Substance Use Disorder – Substance use disorder and its effects upon the individual, their family and society are devastating and directly tied to the health and welfare of the community. The disease is far more complex than the mere abuse of and dependency on mood-altering chemicals and recovery is far more complex than just becoming abstinent. Reducing the numbers of people who are affected by substance use disorder is directly correlated with a decrease in crime, medical treatment and mental health issues within our community.
- Mental Health – Access to mental health care is critical to a healthy community. It is estimated that 1 in 5 Washington residents will experience mental illness in a given year. In Lewis County that would translate to roughly 16,000 people in a year. With these significant numbers we are also experiencing a decrease in resources to adequately help and serve this population. With proper mental health treatment, including prevention and early intervention, we can reduce the impact upon our justice system and our community.
- Therapeutic Courts – Therapeutic Courts are court-supervised treatment programs designed to treat addicted individuals to give them the tools they need to change their lives. Therapeutic Courts reduce recidivism, substance abuse, and child abuse and neglect, improve family relationships, and increase earning potential for participants. Therapeutic Courts are comprised of a multi-disciplinary team, including chemical dependency and mental health professionals, which adheres to the fidelity of the therapeutic court model. Most individuals participating in a therapeutic court program experience co-occurring substance use and mental health disorders.

Strategic Goals

Agencies that submit proposals under this RFP will build their program(s) around these specific goals.

1. Substance Use Disorder

- Goal #1: Increase access to treatment and support services that promote recovery for adults and youth for residents who do not qualify for other funding sources.
- Goal #2: Provide services to individuals who present for treatment with a diagnosis of abuse as an early intervention strategy to reduce the long-term cost of providing services at a higher level.
- Goal #3: Promote engagement in treatment and recovery services by utilizing a best practice model that removes barriers preventing individuals from being successful in treatment and recovery.
- Goal #4: Provide education, screening, referral and brief intervention services in the community. (Emergency department, Jail, Medical facilities, etc.)

2. Mental Health

- Goal #1: Increase access and continuity in treatment and support services for families and individuals, regardless of ability to pay or insurance coverage.
- Goal #2: Reduce inappropriate use of county, municipal, and community resources by individuals who have co-occurring mental health and chemical dependency issues.
- Goal #3: Improve quality of treatment and support services by utilizing best practice models to create innovative programs.

3. Therapeutic Courts

- Goal #1: Implement therapeutic courts that adhere to the key components.
- Goal #2: Reduce substance abuse and promote long-term recovery among participants in therapeutic courts.
- Goal #3: Reduce future involvement in the court system.
- Goal #4: Improve permanent placement process for children in Family Recovery Court.
